

## PLATEAU

- \* Simple, large to medium scale, smooth plateau landform.
- \* Predominately conifer plantation.
- \* Areas of bog/moorland vegetation enclosed by woodland belts.
- \* No settlement.

## UPPER SLOPES

- \* Simple, generally flat or gently sloping landform.
- \* Linear shelterbelts and enclosing woodland.
- \* No significant views from external areas.
- \* No settlement and little infrastructure.
- \* Medium scale landscape.

## LOWER SLOPES

- \* Smaller scale landscape.
- \* Vegetation and habitation pattern becomes more intricate.
- \* Small farm woodlands with hedgerows and scattered riparian woodland.
- \* More widespread local views, interconnected views between settlements.
- \* Site is influenced by existing settlement and infrastructure.
