

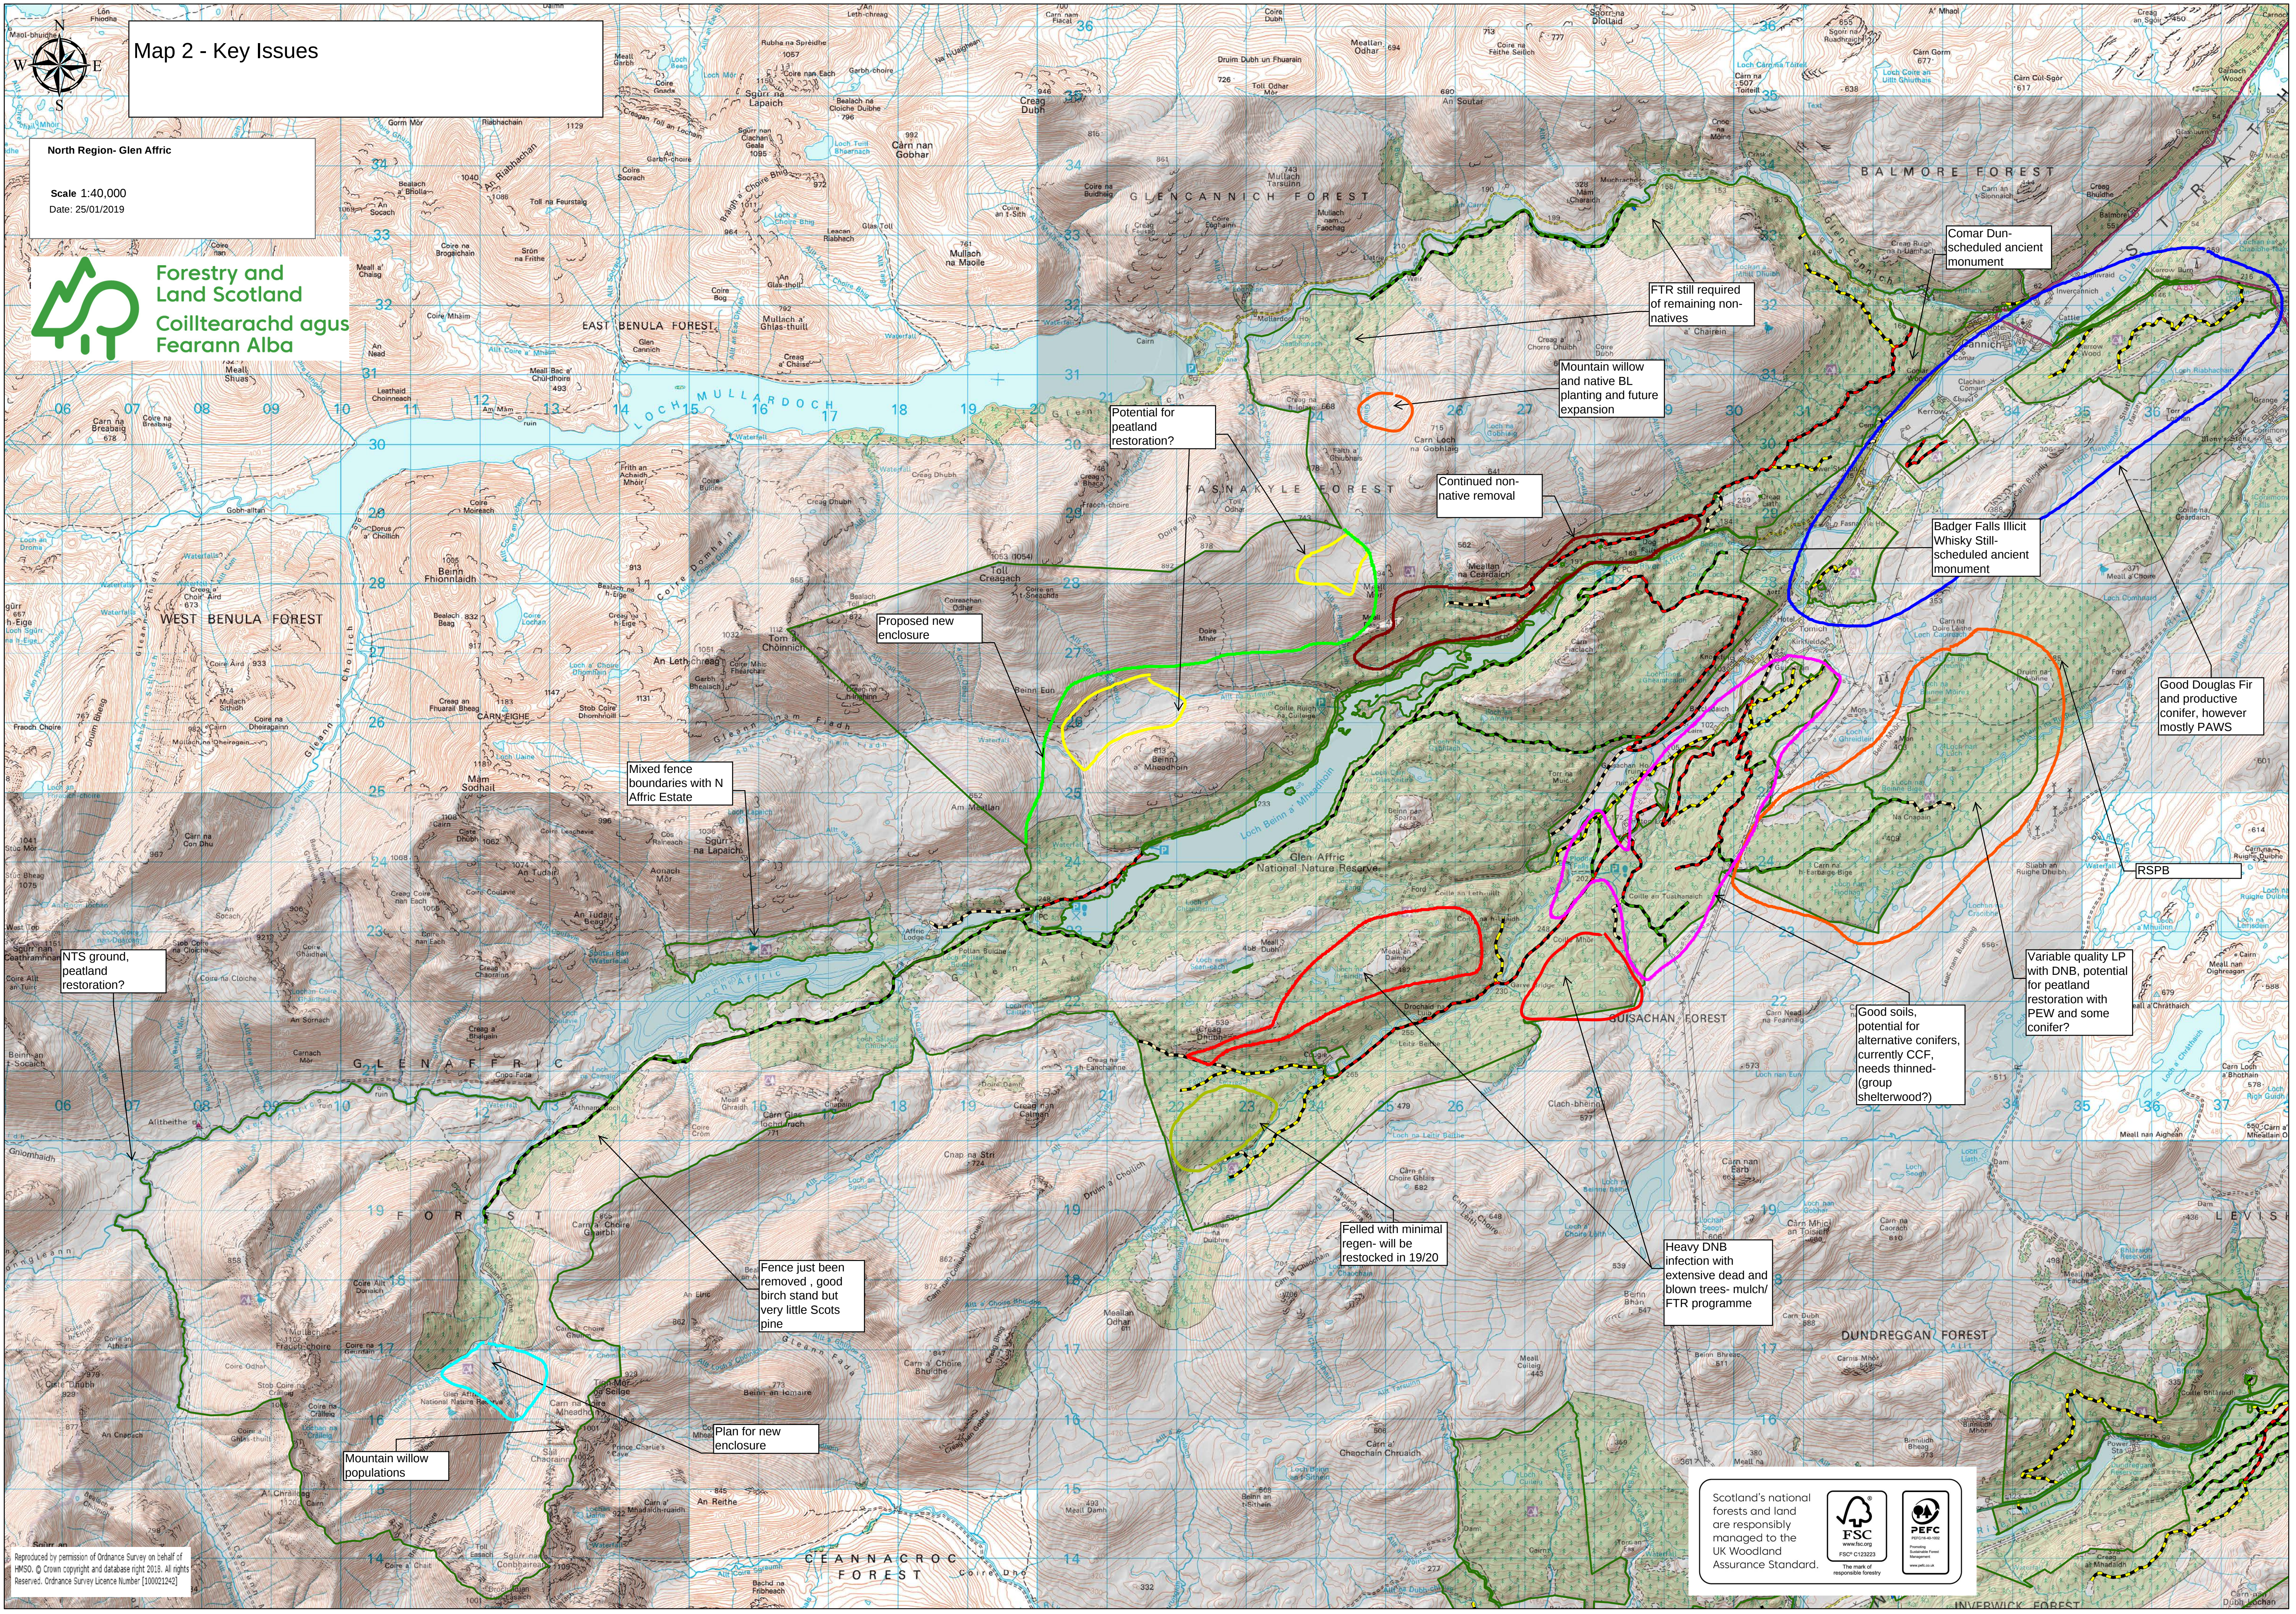

Map 2 - Key Issues

North Region- Glen Affric

Scale 1:40,000

Date: 25/01/2019

NTS ground, peatland restoration?

Mountain willow populations

Mixed fence boundaries with N Affric Estate

Fence just been removed, good birch stand but very little Scots pine

Plan for new enclosure

Proposed new enclosure

Potential for peatland restoration?

Continued non-native removal

Felled with minimal regen- will be restocked in 19/20

Heavy DNB infection with extensive dead and blown trees- mulch/ FTR programme

Good soils, potential for alternative conifers, currently CCF, needs thinned- (group shelterwood?)

Variable quality LP with DNB, potential for peatland restoration with PEW and some conifer?

Badger Falls Illicit Whisky Still- scheduled ancient monument

Mountain willow and native BL planting and future expansion

FTR still required of remaining non-natives

Comar Dun- scheduled ancient monument

Good Douglas Fir and productive conifer, however mostly PAWS

RSPB
