

Feisty and familiar, the robin is the most popular bird in the UK. Make your own robin decoration with this fun activity.

Rockin' Robin

You'll need...

- Thin brown card
- A4 sheet of brown paper
- White paper
- Gluestick
- Scissors
- Red and dark grey felt tip pens/pencils

1: Trace the robin's body from the template below and cut out from thin brown card. Cut a slit in the body where the dotted line is (you may need an adult's help).

2: Cut out the two eyes, tummy pieces and beak shapes from below. Colour the beaks in with your grey pen or pencil and the front tummy parts in red.

3: Stick the tummy pieces, eyes and beaks onto the body – one of each on each side. Use the picture above as a guide for positioning.

4: To make the wings, take your sheet of thin brown paper and concertina fold it (fold it as if you're making a fan – back and forward on itself) so each strip is approx 2cm wide.

Keep the paper folded up and fold it in half.

5: Put the wings through the slot you've cut on the body and spread out the folds to create your bird's wings.

6: Hang your bird up by some thread to create a fluttering bird decoration!
