Spruce and pine around SPHN felling; previous felling permission to consolidate coupe has expired.

Fell clump of Norway spruce between powerline and oil pipeline to prevent issues with utilities arising in the future.

Fell now to remove larch; assist with access to SPHN area below road; improve upper tree line; enable establishment of new forest design; and deal with windblow

Previously clearfelled under SPHN STH19_0280-0283 and associated felling amendment.

Due to small size and accessibility issue, this area will be mulched. Most of the area will be restored to peatland. Previous felling permission has expired. Area of extra land subject to an agreed excambion with Glenramskill Estate.
